Real Skills and Real Leadership**

Paid for by Camilo for Board of Education, Peter Anstett, Treasurer.

Approved by Camilo Riano.

Paid for by Jamie for Board of Education, Peter Anstett, Treasurer.

Approved by Jamie Fitzgerald.

# It is Time for Change on the Board of Education

## Westport Public Schools urgently need redirection

- Westport has always offered superb public education, but there are signs of erosion.
- Despite Covid setbacks, our Democrat controlled board cares more about embedding their activist agenda than student achievement.
- Current BOE leadership is distracted, disorganized and disengaged.

## Our administrators need capable and constructive oversight, not a rubber stamp

- We are common sense problem solvers who will bring transparency and strong governance to help our students thrive as individuals.
- Westport families are the source of our community's strength, and the BOE must act as their voice within our schools.

## From facilities to busing to redistricting, the current board is not equipped to oversee operational challenges ahead

- To preserve academic quality, we need board members who bring relevant skills to the table in areas like strategic planning, data management and finance.
- We have the experience, knowledge, work ethic and commitment to get the job done for our kids.
